

*Associate of the Month*

*Charles "Chic" Voorhis*

*Nelson & Pope*

Chic has been involved with LIBI since 2004. He is a strong voice in the Brookhaven Committee and proudly supports PAC. He has volunteered his band to play at various LIBI events. During the negotiations and discussions relating to the Carmans River Plan, from November 2010 to February 2011, there was a significant amount of scientific information and land use issues which came before the Task Force for discussion and before the Technical Advisory Committee for their review. As always, whenever LIBI called, Chic Voorhis of Nelson, Pope and Voorhis answered the call and provided hours and hours of analysis to the members of the Task Force to allow everyone to understand how such proposals would affect both the groundwater and surface waters in the area. In addition, he would make sure that everyone could determine how such proposals would impact development projects which had already been applied for to the Town of Brookhaven and whether such new proposals would cause a hardship on such projects. For answering the call of LIBI during these very important negotiations and providing many hours of volunteer work to the residential home building community, Chic Voorhis is designated as this month's Associate of the Month.

Thank you Chic!
